PROFILE

Aspiring DevOps Engineer with hands-on training in AWS, Linux, Networking (CCNA), and DevOps technologies. Competent in developing automation, CI/CD pipelines, and cloud infrastructure. Seeking a role to utilize my technical expertise in designing and building scalable systems. Self-motivated, collaborative, and ready to drive technical efficiency.

COURSES

Devops and AWS cloud computing Training

Besant Technologies

- Gained hands-on experience in Linux, AWS, and DevOps tools including Docker, Terraform, Jenkins, and Git, focusing on CI/ CD and infrastructure automation.
- Worked on real-time scenarios involving cloud deployments and automation, which strengthened my practical understanding of DevOps practices and contributed to my transition into a Cloud Engineer role.

WORK EXPERIENCE

Basavasamithi.org

- Implementing the integrated WIX application for data gathering and data manipulation.
- Designed workflows for data gathering and manipulation, ensuring collected information could be extracted, organized, and presented in a meaningful and useful format.
- Functions with Razorpay payment gateway to facilitate secure online transactions and streamline donation/payment processing.
- Managed and maintained e-commerce inventory operations, including product updates, stock monitoring, and catalog management.
- Collaborated on website enhancements, improving user experience, functionality, and operational efficiency.

TECHNICAL SKILLS

Programming Languages

C, Python, C++

Devops Tools used

Jenkins, Docker, Kubernetes (Basics)

Infrastructure as Code

Terraform

Monitoring & Logging

AWS CloudWatch

Operating System worked on

Linux (Ubuntu, Amazon Linux)

Windows XP, 7, 8, 10,

Version Control

Git, GitHub

Cloud Platform

AWS (EC2, S3, VPC, IAM, Auto Scaling, AWS Glue, Athena, RDS, API Gateway, Lambda, CloudFront, Cognito)

Networking

TCP/ IP, Subnetting, Routing & Switching

PROJECT

Secure File Sharing with S3 and CloudFront

- **Services:** S3, CloudFront, IAM, Lambda@Edge
- **Description:** Implement a secure file-sharing service where users can upload files to S3, and CloudFront serves them with signed URLs.
- **Skills:** CDN setup, secure file access, IAM policies.

Data Lake Implementation using AWS Glue and Athena

- **Services:** Amazon S3, AWS Glue, Amazon Athena, IAM.
- **Description:** Create a serverless data lake using Amazon S3 as the storage layer. Use AWS Glue Crawlers to automatically discover and catalog data stored in S3 and store metadata in the Glue Data Catalog. Query the data directly using Amazon Athena without managing any servers. Configure IAM roles and policies to ensure secure access to data and services.
- **Skills:** Data Lake Architecture, Data Cataloging, Serverless Analytics, AWS Glue Crawlers, Amazon Athena Querying, S3 Data Storage, IAM Access Management.

AWS Cost Monitoring & Budget Alerts Services

- **Services:** AWS Budgets, Cost Explorer, Lambda, SNS, SES, CloudWatch.
- **Description:** Monitor AWS spending and generate automated budget alerts using AWS Budgets, SNS, Lambda, and SES. The system sends notifications when spending thresholds are exceeded and logs events in CloudWatch.
- **Skills:** Cost monitoring,

CI/CD Pipeline with AWS CodePipeline and CodeDeploy

- **Services:** CodePipeline, CodeDeploy, EC2, S3.
- **Description:** Build a CI/CD pipeline that deploys a simple web application to EC2 instances. Automate code updates and rollback using versioned deployments.
- **Skills:** DevOps, continuous integration, version control.

ACADEMIC QUALIFICATION

B.E Information Science and Engineering

2017

AMC Engineering College

Board/University: VTU Percentage (Aggregate): 74.02

12th

2013

Vijaya Main College

Board/University: PUC Percentage (Aggregate): 76.33

10th

2011

Good Shepherd School

Board/University: SSLC Percentage (Aggregate): 89.12

CO-CURRICULAR ACTIVITIES

Attended Java workshop.

EXTRA-CURRICULAR ACTIVITIES

Participated in science talent exam and won a gold medal in state level.
